

As one of our regular beneficiaries, A Woman's Place is the recipient of a check each April which they can use wherever it is needed. However, throughout the year, MWA might get calls from Betty, our contact there, for any special needs they may have that cannot be met from their budget.

Recently, Betty called and informed us they had a woman, ready to leave their shelter and go out on her own. Betty's client "needed everything" and, as usual, our very generous membership stepped up and answered that call with what you see is a van loaded with donations from our members.

Our member Liz, collected all these items from our generous members, loaded them in her van and delivered them to Betty at a Woman's Place.

Meet Betty, from a Woman's Place.

I am sure she was thrilled, but not surprised at our members' generosity, to be able to provide all these much needed items for her client.

Thank you, Liz, our member that picked up all these beautiful donations and packed them up in her van and took them to A Woman's Place. It looks like the van was so packed that only the driver's seat was empty!

The generosity of MWA members can be quite impressive and reflects the deep commitment of our "giving back to the Community".

Our members obviously practice 'recycling' at its best. We never throw anything out—after all, it could find a "new home" where it is much needed.

Of course, ALL our donations **must** be in **very good condition** and **only "gently used"** so that the recipients can feel really good about receiving these donations.

The generosity of our members has given Betty's client a great head start in "her own place" after leaving the Shelter.

Our members donated bedding, towels, a coffeemaker, dishes, lamps, a microwave and SO MUCH MORE. Thank you, ladies of the MWA.
